

Ammitzbøll Winther
FL12 TABLE LAMP

FL12 TABLE LAMP

Description

The FL12 TABLE LAMP merges a sculptural archetype with industrial aesthetics and a vibrant nightclub feel. The translucent fibreglass shade emits a soft pleasant light when lit, and beautifully filters sunlight during the day if placed near a window. Supported by a CNC milled aluminium base, the shade is handmade in Denmark from chopped fibreglass strand mats, giving every lamp its own unique texture.

Made to order.

Delivery time

8-12 weeks

Designer

Ammitzbøll Winther

Features

Integrated LED-light
Light dimmer
